

STARWOOD REAL ESTATE INCOME TRUST

# SAWYER FLATS | GAITHERSBURG, MARYLAND

## INVESTMENT HIGHLIGHTS

- Sawyer Flats is a 648-unit multifamily property in Gaithersburg, Maryland in the Washington DC MSA.
- It recently underwent a comprehensive renovation that included all unit interiors, amenity upgrades, landscaping enhancements, and deferred maintenance.
- The Property is centrally located within the I-270 Biotechnology Corridor and benefits from an abundance of STEM employment with over 80,000 STEM jobs amongst the major employers in the corridor, all of which are located within a 30-minute drive of the Property.
- There is also one million square feet of retail within walking distance of Sawyer Flats, including Harris Teeter, an AMC movie theater, Target, several banks, and an abundance of restaurant and fast casual F&B options.

## MARKET HIGHLIGHTS

- Since 2010, the Washington DC MSA added 710,000 people, resulting in a 1.2% CAGR that was double the U.S. average during that time period.
- The Washington DC MSA has one of the most affluent and well-educated populations in the country. At \$106,000 per year, its median household income is second amongst MSAs in the country and WalletHub recently ranked the MSA as the 3rd "Most Educated" city in the country.
- The Gaithersburg multifamily submarket has an attractive supply-demand picture going forward with only one project expected to deliver over the next 24 months, which combined with an already low submarket vacancy and increasing absorption levels, presents a potentially attractive environment for rent growth going forward.

# SUMMARY OF RISK FACTORS

---

**An investment in Starwood Real Estate Income Trust, Inc. involves a high degree of risk. These securities are not liquid instruments. You should purchase these securities only if you can afford the complete loss of your investment. You should carefully read the information set forth in the “Risk Factors” section of the prospectus before buying our shares. Risks include, but are not limited to:**

- We have incurred GAAP net losses attributable to stockholders and an accumulated deficit in the past and may incur GAAP net losses attributable to stockholders and continue to have an accumulated deficit in the future.
- You will not have the opportunity to evaluate our future investments before we make them.
- Since there is no public trading market for shares of our common stock, repurchase of shares by us will likely be the only way to dispose of your shares. Our share repurchase plan provides stockholders with the opportunity to request that we repurchase their shares on a monthly basis, but we are not obligated to repurchase any shares and may choose to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month in our discretion. In addition, repurchases are subject to available liquidity and other significant restrictions. Further, our board of directors may modify or suspend our share repurchase plan if it deems such action to be in our best interest and the best interest of our stockholders. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid.
- We cannot guarantee that we will make distributions, and if we do we may fund such distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and we have no limits on the amounts we may pay from such sources.
- The purchase and repurchase price for shares of our common stock are generally based on our prior month’s NAV and are not based on any public trading market. While there is independent periodic appraisals of our properties, the appraisal of properties is inherently subjective, and our NAV may not accurately reflect the actual price at which our properties could be liquidated on any given day.
- We have no employees and are dependent on Starwood REIT Advisors, L.L.C. (the “Advisor”) to conduct our operations. The Advisor will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among us and Other Starwood Accounts (as defined in the prospectus), the allocation of time of its investment professionals and the substantial fees that we pay to the Advisor.
- This is a “best efforts” offering. If we are not able to raise a substantial amount of capital in the near term, our ability to achieve our investment objectives could be adversely affected.
- There are limits on the ownership and transferability of our shares.
- If we fail to qualify as a REIT and no relief provisions apply, our NAV and cash available for distribution to our stockholders could materially decrease.
- The acquisition of investment properties may be financed in substantial part by debt. The use of leverage involves a high degree of financial risk and will increase the exposure of the investments to adverse economic factors.
- Investing in commercial real estate assets involves certain risks, including, but not limited to: changes in values caused by global, national, regional or local economic performance, the performance of the real estate sector, unemployment, stock market volatility and other impacts of the recent coronavirus pandemic, demographic or capital market conditions; increases in interest rates and lack of availability of financing; vacancies, fluctuations in the average occupancy and room rates for hotel properties; and bankruptcies, financial difficulties or lease defaults by our tenants.
- A change in U.S. tax laws could adversely impact benefits of investing in our shares.
