1. Organization and Business Purpose

Starwood Real Estate Income Trust, Inc. (the “Company”) was formed on June 22, 2017 as a Maryland corporation and has elected to be taxed as a real estate investment trust (“REIT”) for U.S. federal income tax purposes commencing with the taxable year ended December 31, 2019. The Company was organized to invest primarily in stabilized, income-oriented commercial real estate and debt secured by commercial real estate. The Company’s portfolio is principally comprised of properties located in the United States. The Company continues to diversify its portfolio on a global basis through the acquisition of properties outside of the United States, with a focus on Europe. To a lesser extent, the Company invests in real estate debt, including loans secured by real estate and real estate-related securities. The Company is the sole general partner of Starwood REIT Operating Partnership, L.P., a Delaware limited partnership (the “Operating Partnership”). Starwood REIT Special Limited Partner, L.L.C. (the “Special Limited Partner”), a wholly owned subsidiary of Starwood Capital Group Holdings, L.P. (the “Sponsor”), owns a special limited partner interest in the Operating Partnership. Substantially all of the Company’s business is conducted through the Operating Partnership. The Company and the Operating Partnership are externally managed by Starwood REIT Advisors, L.L.C. (the “Advisor”), an affiliate of the Sponsor.

As of June 30, 2022, the Company owned 509 real estate properties, 2,998 single-family rental homes, one investment in an unconsolidated real-estate venture and 59 positions in real estate debt investments. The Company currently operates in seven reportable segments: Multifamily, Single-Family Rental, Industrial, Office, Self-Storage, Other and Investments in Real Estate Debt. Effective January 1, 2022, the Hospitality and Medical Office segments were combined within the Other segment and previous amounts have been recasted. Financial results by segment are reported in Note 14.

On December 27, 2017, the Company commenced its initial public offering of up to \$5.0 billion in shares of common stock (the “Initial Public Offering”). On June 2, 2021, the Initial Public Offering terminated and the Company commenced a follow-on public offering of up to \$10.0 billion in shares of common stock, consisting of up to \$8.0 billion in shares in its primary offering and up to \$2.0 billion in shares pursuant to its distribution reinvestment plan (the “Follow-on Public Offering”). The Company reallocated \$1,700,000,000 in shares from its distribution reinvestment plan to its primary offering, and as a result, is now offering up to \$9,700,000,000 in shares in its primary offering and up to \$300,000,000 in shares pursuant to its distribution reinvestment plan. On February 8, 2022, the Company filed a registration statement on Form S-11 with the U.S. Securities and Exchange Commission (the “SEC”) for its second follow-on public offering, which was declared effective on August 10, 2022. As of June 30, 2022, the Company had received aggregate net proceeds of \$11.4 billion from the sale of shares of the Company’s common stock through the Company’s public offerings.

2. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. All significant intercompany balances and transactions have been eliminated in consolidation. Management believes it has made all necessary adjustments, consisting of only normal recurring items, so that the condensed consolidated financial statements are presented fairly and that estimates made in preparing its condensed consolidated financial statements are reasonable and prudent. The accompanying unaudited condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021 filed with the SEC.

Certain amounts in the Company’s prior period condensed consolidated financial statements have been reclassified to conform to the current period presentation. The Company has chosen to reflect unrealized gains and losses associated with the Company’s interest rate swaps and interest rate caps from “Interest expense” to “Other income, net” for the three and six months ended June 30, 2021 on the Condensed Consolidated Statements of Operations and Comprehensive Loss. Such reclassification had no effect on the previously reported totals included in the Condensed Consolidated Statements of Operations and Comprehensive Loss.

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company, the Company's subsidiaries and joint ventures in which the Company has a controlling interest. For consolidated joint ventures, the non-controlling partner's share of the assets, liabilities and operations of the joint ventures is included in non-controlling interests as equity of the Company. The non-controlling partner's interest is generally computed as the joint venture partner's ownership percentage. Certain of the joint ventures formed by the Company provide the other partner a profits interest based on certain return hurdles being achieved. Any profits interest due to the other partner is reported within non-controlling interests.

In determining whether the Company has a controlling financial interest in a partially owned entity and the requirement to consolidate the accounts of that entity, the Company considers whether the entity is a variable interest entity ("VIE") and whether it is the primary beneficiary. The Company is the primary beneficiary of a VIE when it has (i) the power to direct the most significant activities impacting the economic performance of the VIE and (ii) the obligation to absorb losses or receive benefits significant to the VIE. The Operating Partnership is considered to be a VIE. The Company consolidates the Operating Partnership because it has the ability to direct the most significant activities of the entity such as purchases, dispositions, financings, budgets, and overall operating plans. Where the Company does not have the power to direct the activities of the VIE that most significantly impact its economic performance, the Company's interest for those partially owned entities are accounted for using the equity method of accounting. The Company meets the VIE disclosure exemption criteria, as the Company's interest in the Operating Partnership is considered a majority voting interest.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Foreign Currency

The Company's functional currency is the U.S. dollar. Nonmonetary assets and liabilities are translated at historical rates and monetary assets and liabilities are translated at exchange rates in effect at the end of the reporting period. Income statement accounts are translated at average rates for the reporting period. Gains and losses from translation of foreign denominated transactions into U.S. dollars are included in current results of operations. Gains and losses resulting from foreign currency transactions are also included in current results of operations. The effects of translating the assets, liabilities and income of the Company's foreign investments held by entities with functional currencies other than the U.S. dollar are included in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. Aggregate foreign currency transaction losses included in operations totaled (\$32.5) million and (\$38.9) million for the three and six months ended June 30, 2022, respectively. Aggregate foreign currency transaction income (losses) included in operations totaled \$0.3 million and (\$5.4) million for the three and six months ended June 30, 2021, respectively. These amounts are recorded as a component of Other income, net in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss.

Fair Value Measurements

Under normal market conditions, the fair value of an investment is the amount that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). Additionally, there is a hierarchal framework that prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment and the state of the market place, including the existence and transparency of transactions between market participants. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following levels within the fair value hierarchy:

Level 1 — quoted prices are available in active markets for identical investments as of the measurement date. The Company does not adjust the quoted price for these investments.

Level 2 — quoted prices are available in markets that are not active or model inputs are based on inputs that are either directly or indirectly observable as of the measurement date.

Level 3 — pricing inputs are unobservable and include instances where there is minimal, if any, market activity for the investment. These inputs require significant judgment or estimation by management or third parties when determining fair value and generally represent anything that does not meet the criteria of Levels 1 and 2. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Valuation of assets and liabilities measured at fair value

The Company's investments in real estate debt are reported at fair value. The Company's investments in real estate debt include commercial mortgage-backed securities ("CMBS") and residential mortgage-backed securities ("RMBS"). The Company generally determines the fair value of its investments by utilizing third-party pricing service providers. In determining the value of a particular investment, the pricing service providers may use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models to determine the reported price. The pricing service providers' internal models for real estate-related securities usually consider the attributes applicable to a particular class of security (e.g., credit rating, seniority), current market data, and estimated cash flows for each class and incorporate deal collateral performance such as prepayment speeds and default rates, as available.

Certain of the Company's investments in real estate debt include loans secured by real estate, such as its term loans, which may not have readily available market quotations. In such cases, the Company will generally determine the initial value based on the origination amount or acquisition price of such investment if acquired by the Company or the par value of such investment if originated by the Company. Following the initial measurement, the Company will determine fair value by utilizing or reviewing certain of the following inputs (i) market yield data, (ii) discounted cash flow modeling, (iii) collateral asset performance, (iv) local or macro real estate performance, (v) capital market conditions, (vi) debt yield or loan-to-value ratios and (vii) borrower financial condition and performance.

The Company's investments in equity securities of public real estate-related companies are reported at fair value and were recorded as a component of Other assets on the Company's Condensed Consolidated Balance Sheets. As such, the resulting unrealized gains and losses are recorded as a component of Other income, net in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. During the three months ended June 30, 2022 and 2021, the Company recognized (\$29.6) million of unrealized losses and \$1.5 million of unrealized gains on its investments in equity securities, respectively. During the six months ended June 30, 2022 and 2021, the Company recognized (\$42.3) million of unrealized losses and \$3.2 million of unrealized gains on its investments in equity securities, respectively. In determining the fair value of public equity securities, the Company utilizes the closing price of such securities in the principal market in which the security trades.

The Company's derivative financial instruments are reported at fair value. The Company's interest rate swap agreements are valued using a discounted cash flow analysis based on the terms of the contract and the forward interest rate curve adjusted for the Company's nonperformance risk. The Company's interest rate cap positions are valued using models developed by the respective counterparty as well as third party pricing service providers that use as their basis readily observable market parameters (such as forward yield curves and credit default swap data). As of June 30, 2022, the Company held 39 interest rate caps with an aggregate notional value of \$9.0 billion, two interest rate caps with an aggregate notional value of €88.0 million, one interest rate cap with an aggregate notional value of Dkr.301.5 million associated with the Company's Danish investment. As of June 30, 2022 the weighted average strike rate and maturity of the Company's interest rate caps was 1.05% and 3.5 years, respectively. In addition, the Company held two interest rate swaps with an aggregate notional value of \$258.6 million, two interest rate swaps with an aggregate notional value of €182.7 million and one interest rate swap with an aggregate notional value of kr576.6 million associated with the Company's investment in Norway. As of June 30, 2022 the weighted average strike rate and maturity of the Company's interest rate swaps was 1.42% and 4.0 years, respectively. The resulting unrealized gains and losses associated with the Company's interest rate swaps and interest rate caps are recorded as a component of Other income, net in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. The Company recognized \$78.6 million and \$8.6 million of net unrealized gains on its interest rate derivatives during the three months ended June 30, 2022 and 2021, respectively. The Company recognized \$348.2 million and \$16.6 million of net unrealized gains on its interest rate derivatives during the six months ended June 30, 2022 and 2021, respectively.

The fair values of the Company's foreign currency swaps are determined by comparing the contracted forward exchange rate to the current market exchange rate. The current market exchange rates are determined by using market spot rates, forward rates and interest rate curves for the underlying instruments. As of June 30, 2022, the Company held 22 EUR, ten DKK, two GBP, two AUD and one NOK foreign currency swaps, with an aggregate notional value of €564 million, Dkr.1,094 million, £260 million, A\$305 million, and kr881 million, respectively.

The fair values of the Company's financial instruments (other than investments in real estate debt, mortgage notes, revolving credit facility, unsecured line of credit and derivative instruments), including cash and cash equivalents, restricted cash and other financial instruments, approximate their carrying or contract value. The fair value of the term loans approximates the initial par value because the loans are pre-payable at the option of the borrower at any time. We continuously monitor and assess credit quality of individual loans including the review of delinquency and LTV ratios on the term loans. Such loans have floating interest rates with market terms and there are no underlying credit quality issues as of June 30, 2022.

Valuation of liabilities not measured at fair value

Fair value of the Company's indebtedness is estimated by modeling the cash flows required by the Company's debt agreements and discounting them back to the present value using an appropriate discount rate. Additionally, the Company considers current market rates and conditions by evaluating similar borrowing agreements with comparable loan-to-value ratios and credit profiles. The inputs used in determining the fair value of the Company's indebtedness are considered Level 3. As of June 30, 2022, the fair value of the Company's mortgage notes, revolving credit facility and secured financings on investments in real estate debt was approximately \$136.9 million below the outstanding principal balance.

Organization and Offering Expenses

Organization costs are expensed as incurred and recorded as a component of General and administrative expenses on the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss, and offering costs are charged to equity as such amounts are incurred.

The Advisor advanced \$7.3 million of organization and offering expenses on behalf of the Company (including legal, accounting, and other expenses attributable to the organization, but excluding upfront selling commissions, dealer manager fees and stockholder servicing fees) through December 21, 2019, the first anniversary of the date on which the proceeds from escrow were released. The Company reimburses the Advisor for all such advanced expenses ratably over a 60-month period, which commenced in January 2020. These organization and offering costs are recorded as a component of Due to affiliates on the Company's Condensed Consolidated Balance Sheets as of June 30, 2022 and December 31, 2021.

Starwood Capital, L.L.C. (the “Dealer Manager”), a registered broker-dealer affiliated with the Advisor, serves as the dealer manager for the Company’s public offerings. The Dealer Manager is entitled to receive selling commissions and dealer manager fees based on the transaction price of each applicable class of shares sold in the primary offering. The Dealer Manager is also entitled to receive a stockholder servicing fee based on the aggregate net asset value (“NAV”) of the Company’s outstanding Class T shares, Class S shares, and Class D shares.

The following table details the selling commissions, dealer manager fees, and stockholder servicing fees for each applicable share class as of June 30, 2022 and December 31, 2021:

	Common Stock Class T	Common Stock Class S	Common Stock Class D	Common Stock Class I
Selling commissions and dealer manager fees (% of transaction price)	up to 3.5%	up to 3.5%	up to 1.5%	—
Stockholder servicing fee (% of NAV)	0.85%	0.85%	0.25%	—

For Class T shares sold in the primary offering, investors will pay upfront selling commissions of up to 3.0% of the transaction price and upfront dealer manager fees of 0.5% of the transaction price, however such amounts may vary at certain participating broker-dealers, provided that the sum will not exceed 3.5% of the transaction price. For Class S shares sold in the primary offering, investors will pay upfront selling commissions of up to 3.5% of the transaction price. For Class D shares sold in the primary offering, investors will pay upfront selling commissions of up to 1.5% of the transaction price. Prior to February 4, 2020, no upfront selling commissions were paid on Class D shares.

The Dealer Manager is entitled to receive stockholder servicing fees of 0.85% per annum of the aggregate NAV for Class T shares and Class S shares. For Class T shares, such stockholder servicing fee includes an advisor stockholder servicing fee of 0.65% per annum, and a dealer stockholder servicing fee of 0.20% per annum, of the aggregate NAV for the Class T shares, however, with respect to Class T shares sold through certain participating broker-dealers, the advisor stockholder servicing fee and the dealer stockholder servicing fee may be other amounts, provided that the sum of such fees will always equal 0.85% per annum of the NAV of such shares. The Class D shares will incur a stockholder servicing fee equal to 0.25% per annum of the aggregate NAV for the Class D shares. There is no stockholder servicing fee with respect to Class I shares.

The Dealer Manager has entered into agreements with the selected dealers distributing the Company’s shares in the Follow-on Public Offering, which provide, among other things, for the re-allowance of the full amount of the selling commissions and dealer manager fees received and all or a portion of the stockholder servicing fees to such selected dealers. The Company will cease paying the stockholder servicing fee with respect to any Class T share, Class S share or Class D share sold in the primary offering at the end of the month in which the total selling commissions, dealer manager fees and stockholder servicing fees paid with respect to the shares held by such stockholder within such account would exceed 8.75% (or, in the case of Class T shares sold through certain participating broker-dealers, a lower limit as set forth in any applicable agreement between the Dealer Manager and a participating broker-dealer) of the gross proceeds from the sale of such share (including the gross proceeds of any shares issued under the Company’s distribution reinvestment plan with respect thereto). The Company will accrue the full cost of the stockholder servicing fee as an offering cost at the time each Class T, Class S and Class D share is sold during the primary offering. As of June 30, 2022 and December 31, 2021, the Company had accrued \$417.3 million and \$291.5 million, respectively, of stockholder servicing fees related to shares sold and recorded such amount as a component of Due to affiliates on the Company’s Condensed Consolidated Balance Sheets.

Income Taxes

The Company elected to be taxed as a REIT under the Internal Revenue Code (the “Code”), for federal income tax purposes, beginning with its taxable year ended December 31, 2019. As long as the Company qualifies for taxation as a REIT, it generally will not be subject to U.S. federal corporate income tax on its net taxable income that is currently distributed to its stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it currently distributes at least 90% of its REIT taxable income (subject to certain adjustments) to its stockholders. If the Company fails to qualify as a REIT in a taxable year, without the benefit of certain relief provisions, it will be subject to federal and state income tax on its taxable income at regular corporate tax rates. Even if the Company qualifies for taxation as a REIT, it may also be subject to certain federal, state, and local taxes on its income and assets, including (1) taxes on any undistributed income, (2) taxes related to its taxable REIT subsidiaries (“TRSs”) and (3) certain state or local income taxes.

The Company has formed wholly owned subsidiaries to function as TRSs and filed TRS elections, together with such subsidiaries, with the Internal Revenue Service. In general, a TRS may perform additional services for the Company’s tenants and generally may engage

in any real estate or non-real estate-related business other than management or operation of a lodging facility or a health care facility. The TRSs are subject to taxation at the federal, state and local levels, as applicable, at the regular corporate tax rates. The Company accounts for applicable income taxes by utilizing the asset and liability method. As such, the Company records deferred tax assets and liabilities for the future tax consequences resulting from the difference between the carrying value of existing assets and liabilities and their respective tax basis. A valuation allowance for deferred tax assets is provided if the Company believes all or some portion of the deferred tax asset may not be realized.

For the three and six months ended June 30, 2022, the Company recognized income tax expense of \$0.1 million and an income tax benefit of \$0.0 million, respectively, within Other income, net in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. For the three and six months ended June 30, 2021, the Company recognized income tax expense of \$0.1 million and \$0.1 million, respectively, within Other income, net on the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. As of June 30, 2022 and December 31, 2021, the Company recorded a net deferred tax liability of \$40.7 million primarily due to assumed capital gains from four European investments and \$8.6 million primarily due to assumed capital gains from a European investment, respectively, within Other liabilities on the Company's Condensed Consolidated Balance Sheets.

Recent Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board (the "FASB") issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting* ("ASU 2020-04"). ASU 2020-04 provides optional expedients and exceptions to GAAP requirements for modifications on debt instruments, leases, derivatives, and other contracts, related to the expected market transition from LIBOR, and certain other floating rate benchmark indices to alternative reference rates. ASU 2020-04 generally considers contract modifications related to reference rate reform to be an event that does not require contract remeasurement at the modification date nor a reassessment of a previous accounting determination. The guidance in ASU 2020-04 is optional and may be elected over time, through December 31, 2022, as reference rate reform activities occur. Once ASU 2020-04 is elected, the guidance must be applied prospectively for all eligible contract modifications. In January 2021, the FASB issued ASU 2021-01, *Reference Rate Reform (Topic 848): Scope* ("ASU 2021-01"), which clarifies that certain optional expedients and exceptions in Topic 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. ASU 2021-01 permits entities to elect certain optional expedients and exceptions when accounting for derivative contracts and certain hedging relationships affected by changes in the interest rates used for discounting cash flows, for computing variation margin settlements, and for calculating price alignment interest in connection with reference rate reform activities under way in global financial markets. The Company has not adopted any of the optional expedients or exceptions as of June 30, 2022, but will continue to evaluate the possible adoption of any such expedients or exceptions during the effective period as circumstances evolve.

Total investments in real estate debt	56	4.41%	April 8, 2033	\$ 969,590	\$ 954,077

⁽¹⁾ The term “L” refers to the relevant benchmark rates, which includes one-month LIBOR, one-month SOFR, three-month BBSY, and SONIA as applicable to each security and loan.

⁽²⁾ Weighted average maturity date is based on the fully extended maturity date of the underlying collateral.

On February 26, 2021, the Company provided financing in the form of a term loan to an unaffiliated entity in connection with its acquisition of a premier United Kingdom holiday company. The loan is in the amount of £360 million and has an initial term of five years, with a two-year extension option. The loan is pre-payable at the option of the borrower at any time.

On June 21, 2022, the Company provided financing in the form of a term loan to an unaffiliated entity in connection with its acquisition of three Australian hospitality and leisure resorts. The loan is in the amount of AUD 1,377 million and has an initial term of five years, with a two-year extension option. The loan is pre-payable at the option of the borrower at any time.

The majority of the Company’s investments in real estate debt securities consist of non-agency RMBS and CMBS.

The Company’s investments in real estate debt include CMBS collateralized by properties owned by Starwood-advised investment vehicles. The following table details the Company’s affiliate investments in real estate debt (\$ in thousands):

	Fair Value	
	June 30, 2022	December 31, 2021
CMBS	\$ 388,675	\$ 295,465
Total	\$ 388,675	\$ 295,465

Such CMBS were purchased in fully or over-subscribed offerings. Each investment in such CMBS by the Company represented a minority participation in any individual tranche. The Company acquired its minority participation interest from third-party investment banks on market terms negotiated by the majority third-party investors.

During the three and six months ended June 30, 2022, the Company recorded net unrealized losses on its investments in real estate securities of (\$14.9) million and (\$25.4) million, respectively. During the three and six months ended June 30, 2021, the Company recorded net unrealized losses on its investments in real estate debt of (\$0.0) million and (\$0.3) million, respectively. Such amounts are recorded as a component of Income from investments in real estate debt in the Company’s Condensed Consolidated Statements of Operations and Comprehensive Loss.

6. Mortgage Notes and Revolving Credit Facility

The following table is a summary of the mortgage notes and revolving credit facility secured by the Company's properties as of June 30, 2022 and December 31, 2021 (\$ in thousands):

Mortgage notes and revolving credit facility, net				\$ 13,873,518	\$ 11,274,411

(1) The term "L" refers to the relevant floating benchmark rates, which includes one-month LIBOR, one-month SOFR, NYFED 30 day SOFR, three-month EURIBOR and three-month CIBOR, as applicable to each loan.

(2) For loans where the Company, at its own discretion, has extension options, the maximum maturity date has been assumed.

(3) The majority of the Company's mortgages contain yield or spread maintenance provisions.

(4) The Company's revolving credit facility can be drawn upon to fund the acquisition of future real estate investments. The repayment of the revolving credit facility is guaranteed by the Operating Partnership.

The following table presents the future principal payments under the Company's mortgage notes and revolving credit facility as of June 30, 2022 and for loans where the Company, at its own discretion, has extension options, the maximum maturity date has been assumed (\$ in thousands):

Year	Amount
2022 (remaining)	\$ 615,316
2023	1,343,891
2024	489,000
2025	825,485
2026	4,827,979
Thereafter	5,873,041
Total	\$ 13,974,712

Pursuant to lender agreements for certain of the Company's mortgages, the Company has the ability to draw \$86.6 million for leasing commissions and tenant and building improvements.

The Company's mortgage notes and revolving credit facility may contain customary events of default and covenants, including limitations on liens and indebtedness and maintenance of certain financial ratios. The Company is not aware of any instance of noncompliance with financial covenants as of June 30, 2022.

7. Secured Financings on Investments in Real Estate Debt

Secured financings on investments in real estate debt are treated as collateralized financing transactions and are carried at their contractual amounts, including accrued interest, as specified in the respective agreements. Although structured as a sale and repurchase obligation, a secured financing on investments in real estate debt operates as a financing under which securities are pledged as collateral to secure a short-term loan equal in value to a specified percentage of the market value of the pledged collateral. While used as collateral, the Company retains beneficial ownership of the pledged collateral, including the right to distributions. At the maturity of

a secured financing on investments in real estate debt, the Company is required to repay the loan and concurrently receive the pledged collateral from the lender or, with the consent of the lender, renew such agreement at the then-prevailing financing rate.

Interest rates on these borrowings are determined based on prevailing rates corresponding to the terms of the borrowings, and interest is paid at the termination of the borrowing at which time the Company may enter into a new borrowing arrangement at prevailing market rates with the same counterparty or repay that counterparty and negotiate financing with a different counterparty.

The fair value of financial instruments pledged as collateral on the Company's secured financings on investments in real estate debt disclosed in the tables below represents the Company's fair value of such instruments, which may differ from the fair value assigned to the collateral by its counterparties.

During February 2021, the Company entered into a repurchase agreement with Barclays Bank PLC in order to finance its term loan investment (the "Barclays RA") to an unaffiliated entity in connection with its acquisition of a premier United Kingdom holiday company. Effective February 15, 2022, the reference rate for the calculation of interest transitioned from the three-month U.S. dollar-denominated LIBOR to the Sterling Overnight Index Average ("SONIA"). The Barclays RA interest rate is now equal to the SONIA daily non-cumulative EFR rate plus a spread.

During June 2022, the Company entered into a repurchase agreement with Morgan Stanley Bank, N.A. ("Morgan Stanley"), Guardians of New Zealand Superannuation as manager and administrator of the New Zealand Superannuation Fund ("NZ Super"), and BAWAG P.S.K. Bank für Arbeit und Wirtschaft und Österreichische Postsparkasse Aktiengesellschaft ("BAWAG") in order to finance its term loan investment (the "Syndicated RA") to an unaffiliated entity in connection with its acquisition of three Australian hospitality and leisure resorts.

For financial statement purposes, the Company does not offset its secured financings on investments in real estate debt and securities lending transactions because the conditions for netting as specified by GAAP are not met. Although not offset on the Company's Condensed Consolidated Balance Sheets, these transactions are summarized in the following tables (\$ in thousands):

Indebtedness	Weighted Average Maturity Date	Weighted Average Coupon	June 30, 2022	
			Collateral Assets ⁽¹⁾	Outstanding Balance

⁽¹⁾ Represents the fair value of the Company's term loan investment.

8. Unsecured Line of Credit

During July 2021 the Company further increased its unsecured line of credit (the "Line of Credit") by \$100 million with additional banks for a total borrowing capacity of \$450 million. During May 2022 additional banks were added under the Line of Credit, and the total borrowing capacity was increased to \$1,550 million. The Line of Credit expires on May 11, 2024, at which time the Company may request additional one-year extensions thereafter. Interest under the Line of Credit is determined based on one-month U.S. dollar-denominated SOFR plus 2.5%. The repayment of the Line of Credit is guaranteed by the Company. There were no outstanding borrowings and \$375 million outstanding on the Line of Credit as of June 30, 2022 and December 31, 2021, respectively.

10. Equity and Redeemable Non-controlling Interest

Authorized Capital

The Company is authorized to issue preferred stock and four classes of common stock consisting of Class T shares, Class S shares, Class D shares, and Class I shares. The Company's board of directors has the ability to establish the preferences and rights of each class or series of preferred stock, without stockholder approval, and as such, it may afford the holders of any series or class of preferred stock preferences, powers and rights senior to the rights of holders of common stock. The differences among the common share classes relate to upfront selling commissions, dealer manager fees and ongoing stockholder servicing fees. See Note 2 for a further description of such items. Other than the differences in upfront selling commissions, dealer manager fees and ongoing stockholder servicing fees, each class of common stock is subject to the same economic and voting rights.

Charter Amendment

On May 10, 2021, the Company amended its charter to increase the number of shares of stock that the Company has authority to issue to 3,100,000,000 shares, consisting of 3,000,000,000 shares of common stock, \$0.01 par value per share, 500,000,000 of which are classified as Class T common stock, 1,000,000,000 of which are classified as Class S common stock, 500,000,000 of which are classified as Class D common stock and 1,000,000,000 of which are classified as Class I common stock, and 100,000,000 shares of preferred stock, \$0.01 par value per share. Prior to the amendment, the Company had authority to issue 1,100,000,000 shares, consisting of 1,000,000,000 shares of common stock, \$0.01 par value per share, 250,000,000 of which were classified as Class T common stock, 250,000,000 of which were classified as Class S common stock, 250,000,000 of which were classified as Class D common stock and 250,000,000 of which were classified as Class I common stock, and 100,000,000 shares of preferred stock, \$0.01 par value per share.

As of June 30, 2022, the Company had the authority to issue 3,100,000,000 shares of capital stock, consisting of the following:

Classification	Number of Shares	Par Value
Preferred Stock	100,000,000	\$ 0.01
Class T Shares	500,000,000	\$ 0.01
Class S Shares	1,000,000,000	\$ 0.01
Class D Shares	500,000,000	\$ 0.01
Class I Shares	1,000,000,000	\$ 0.01

Share Repurchases

The Company has adopted a share repurchase plan whereby, subject to certain limitations, stockholders may request on a monthly basis that the Company repurchases all or any portion of their shares. Should repurchase requests, in the Company's judgment, place an undue burden on its liquidity, adversely affect its operations or risk having an adverse impact on the Company as a whole, or should the Company otherwise determine that investing its liquid assets in real properties or other illiquid investments rather than repurchasing its shares is in the best interests of the Company as a whole, then the Company may choose to repurchase fewer shares than have been requested to be repurchased, or none at all. Further, the Company's board of directors may modify and suspend the Company's share repurchase plan if it deems such action to be in the Company's best interest and in the best interest of its stockholders. In addition, the total amount of shares that the Company will repurchase is limited, in any calendar month, to shares whose aggregate value (based on the repurchase price per share on the date of the repurchase) is no more than 2% of its aggregate NAV as of the last day of the previous calendar month and, in any calendar quarter, to shares whose aggregate value is no more than 5% of its aggregate NAV as of the last day of the previous calendar quarter. In the event that the Company determines to repurchase some but not all of the shares submitted for repurchase during any month, shares repurchased at the end of the month will be repurchased on a pro rata basis.

For the three months ended June 30, 2022, the Company repurchased 4,356,951 shares of common stock representing a total of \$118.3 million. For the six months ended June 30, 2022, the Company repurchased 6,175,916 shares of common stock representing a total of \$165.3 million. The Company had no unfulfilled repurchase requests as of June 30, 2022.

Distributions

The Company generally intends to distribute substantially all of its taxable income, which does not necessarily equal net income as calculated in accordance with GAAP, to its stockholders each year to comply with the REIT provisions of the Code.

Each class of common stock receives the same gross distribution per share. The net distribution varies for each class based on the applicable stockholder servicing fee, which is deducted from the monthly distribution per share and is paid directly to the applicable distributor.

The following table details the aggregate distributions declared for each applicable class of common stock for the six months ended June 30, 2022:

	Class T	Class S	Class D	Class I
Gross distributions declared per share of common stock	\$ 0.6210	\$ 0.6210	\$ 0.6210	\$ 0.6210

Redeemable Non-controlling Interest

In connection with its performance participation interest, the Special Limited Partner holds Class I units in the Operating Partnership. See Note 11 for further details of the Special Limited Partner's performance participation interest. Because the Special Limited Partner has the ability to redeem its Class I units for cash, at its election, the Company has classified these Class I units as Redeemable non-controlling interest in mezzanine equity on the Company's Condensed Consolidated Balance Sheets. The Redeemable non-controlling interest is recorded at the greater of the carrying amount, adjusted for its share of the allocation of income or loss and distributions, or the redemption value, which is equivalent to fair value, of such units at the end of each measurement period. As the redemption value was greater than the adjusted carrying value at June 30, 2022, the Company recorded an allocation adjustment of \$20.8 million between Additional paid-in capital and Redeemable non-controlling interest.

In addition to the Special Limited Partner's interest noted above, certain third parties also have a redeemable non-controlling interest. As of June 30, 2022 and June 30, 2021, \$196.8 million and no balance, respectively, related to such third parties was included in Redeemable non-controlling interests attributable to third-parties.

The following table details the Redeemable non-controlling interest activity related to the Special Limited Partner and Third-party OP unitholders for the six months ended June 30, 2022 (\$ in thousands):

11. Related Party Transactions

Acquisition of Investments

On March 11, 2022, the Company acquired floating rate CMBS bonds related to the Sponsor and a third party for \$109.2 million, secured by 111 lodging properties.

Management Fee and Performance Participation Allocation

The Advisor is entitled to an annual management fee equal to 1.25% of the Company's NAV, payable monthly as compensation for the services it provides to the Company. The management fee can be paid, at the Advisor's election, in cash, shares of common stock, or Operating Partnership units. During the three and six months ended June 30, 2022, the Company incurred management fees of \$42.2 million and \$76.4 million, respectively. During the three and six months ended June 30, 2021, the Company incurred management fees of \$11.3 million and \$18.7 million, respectively.

To date, the Advisor has elected to receive the management fee in shares of the Company's common stock. For the six months ended June 30, 2022, the Company issued 2,289,787 unregistered Class I shares to the Advisor as payment for the management fee incurred through May 2022 year to date and also had a payable of \$14.6 million related to the management fee as of June 30, 2022, which is included in Due to affiliates on the Company's Condensed Consolidated Balance Sheets. During July 2022, the Advisor was issued 533,264 unregistered Class I shares as payment for the \$14.6 million management fee accrued as of June 30, 2022. The shares issued to the Advisor for payment of the management fee were issued at the applicable NAV per share at the end of each month for which the fee was earned.

Additionally, the Special Limited Partner, an affiliate of the Advisor, holds a performance participation interest in the Operating Partnership that entitles it to receive an allocation of the Operating Partnership's total return to its capital account. Total return is defined as distributions paid or accrued plus the change in NAV. Under the Operating Partnership agreement, the annual total return will be allocated solely to the Special Limited Partner after the other unit holders have received a total return of 5% (after recouping any loss carryforward amount) and such allocation will continue until the allocation between the Special Limited Partner and all other unit holders is equal to 12.5% and 87.5%, respectively. Thereafter, the Special Limited Partner will receive an allocation of 12.5% of the annual total return. The annual distribution of the performance participation interest will be paid in cash or Class I units of the Operating Partnership, at the election of the Special Limited Partner. During the three and six months ended June 30, 2022, the Company recognized \$52.3 million and \$139.5 million, respectively, of performance participation allocation in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. During the three and six months ended June 30, 2021, the Company recognized \$23.7 million and \$32.4 million, respectively, of performance participation allocation in the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss.

The performance participation interest allocation for 2021 became payable on December 31, 2021 and, in January 2022, the Company caused the Operating Partnership to issue 7,872,930 Class I units in the Operating Partnership to the Special Limited Partner as payment for the performance participation interest allocation for 2021. Such Class I units were issued at the NAV per unit as of December 31, 2021.

Repurchase of Advisor Shares

During the three and six months ended June 30, 2022, we repurchased outside of our share repurchase plan 66,792 Class I shares held by the Advisor for total consideration of \$1.8 million. During the three and six months ended June 30, 2021, we repurchased outside of our share repurchase plan 25,732 Class I shares held by the Advisor for total consideration of \$0.6 million.

Due to Affiliates

The following table details the components of Due to affiliates (\$ in thousands):

Accrued stockholder servicing fee

As described in Note 2, the Company accrues the full amount of the future stockholder servicing fees payable to the Dealer Manager for Class T shares, Class S shares, and Class D shares up to the 8.75% limit at the time such shares are sold. As of June 30, 2022 and December 31, 2021, the Company has accrued \$417.3 million and \$291.5 million, respectively, of stockholder servicing fees payable to the Dealer Manager related to the Class T shares, Class S shares and Class D shares sold. The Dealer Manager has entered into agreements with the participating broker dealers distributing the Company's shares in the public offerings, which provide, among other things, for the re-allowance of the full amount of the selling commissions and dealer manager fees and all or a portion of the stockholder servicing fees received by the Dealer Manager to such participating broker dealers.

Advanced organization and offering costs

The Advisor and its affiliates incurred \$7.3 million of organization and offering costs in connection with the Initial Public Offering (excluding upfront selling commissions, dealer manager fees and stockholder servicing fees) on behalf of the Company through December 21, 2019. Such amount is being reimbursed to the Advisor ratably over 60 months, which commenced in January 2020.

Accrued affiliate service provider expenses

The Company has engaged and expects to continue to engage Highmark Residential (formerly Milestone Management), a portfolio company owned by an affiliate of the Sponsor, to provide property management services (including leasing, revenue management, accounting, legal and contract management, expense management, and capital expenditure projects and transaction support services) for a portion of the Company's multifamily properties. The cost for such services is a percentage of the gross receipts and project costs respectively (which will be reviewed periodically and adjusted if appropriate), plus actual costs allocated for transaction support services. During the three and six months ended June 30, 2022, the Company has incurred approximately \$3.9 million and \$6.7 million, respectively, of expenses due to Highmark Residential in connection with its investments and such amount is included in Property operating expenses on the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss. During the three and six months ended June 30, 2021, the Company incurred approximately \$1.4 million and \$2.7 million, respectively, of expenses due to Highmark Residential in connection with its investments and such amount is included in Property operating expenses on the Company's Condensed Consolidated Statements of Operations and Comprehensive Loss.

The Company has engaged Rinaldi, Finkelstein & Franklin L.L.C. ("RFF"), a law firm owned and controlled by Ellis F. Rinaldi, Co-General Counsel and Senior Managing Director of the Sponsor and certain of its affiliates, to provide corporate legal support services to the Company. During the three and six months ended June 30, 2022, the amounts incurred for services provided by RFF were \$0.2 million and \$0.3 million, respectively. During the three and six months ended June 30, 2021, the amounts incurred for services provided by RFF were \$0.1 million and \$0.2 million, respectively.

The Company has engaged Essex Title, LLC ("Essex"), a title agent company majority owned by the Sponsor. Essex acts as an agent for one or more underwriters in issuing title policies and/or providing support services in connection with investments by the Company, Starwood Capital and its affiliates and third parties. Essex focuses on transactions in rate-regulated states where the cost of title insurance is non-negotiable. Essex will not perform services in non-regulated states for the Company, unless (i) in the context of a portfolio transaction that includes properties in rate-regulated states, (ii) as part of a syndicate of title insurance companies where the rate is negotiated by other insurers or their agents, (iii) when a third party is paying all or a material portion of the premium or (iv) when providing only support services to the underwriter. Essex earns fees, which would have otherwise been paid to third parties, by providing title agency services and facilitating placement of title insurance with underwriters. Starwood receives distributions from Essex in connection with investments by the Company based on its equity interest in Essex. In each case, there will be no related offset to the Company. During the three and six months ended June 30, 2022, the amounts incurred for services provided by Essex were \$2.2 million and \$3.3 million, respectively. During the three and six months ended June 30, 2021, the amounts incurred for services provided by Essex were \$0.3 million and \$0.3 million, respectively.

The Company engaged Starwood Retail Partners to provide leasing and legal services for any retail properties we acquire. During the three and six months ended June 30, 2022, the Company incurred \$0.0 million and \$0.0 million, respectively. During the three and six months ended June 30, 2021, the Company did not incur any expenses from Starwood Retail Partners.

The Company has engaged the Sponsor's affiliated Luxembourg office for accounting and administrative matters relating to certain European investments. During the three and six months ended June 30, 2022, the amounts incurred for services provided were \$0.4 million and \$0.7 million, respectively. During the three and six months ended June 30, 2021, the Company did not incur any expenses from the Sponsor's affiliated Luxembourg office.

The Company has incurred legal expenses from third party law firms whose lawyers have been seconded to affiliates of Starwood Capital for the purpose of providing legal services in Europe to investment vehicles sponsored by Starwood Capital. During the three and six months ended June 30, 2022, the amounts incurred for services provided were \$0.2 million and \$0.3 million, respectively. During the three and six months ended June 30, 2021, the Company did not incur any expenses from these law firms.

Advanced operating expenses

As of June 30, 2022 and December 31, 2021, the Advisor had advanced approximately \$0.1 million and \$0.1 million, respectively, of expenses on the Company's behalf for general corporate expenses provided by unaffiliated third parties. Such amounts were incurred from July 13, 2017 (date of initial capitalization) through December 31, 2018 and are being reimbursed to the Advisor ratably over a 60 month period, which commenced in January 2020.

Operating expenses incurred after December 31, 2018 are paid by us as incurred. For the six months ended June 30, 2022 and the year ended December 31, 2021, the Advisor had incurred approximately \$6.6 million and \$6.7 million, respectively, of expenses on the Company's behalf for general corporate expenses. Such amounts are being reimbursed to the Advisor one month in arrears.

12. Commitments and Contingencies

As of June 30, 2022 and December 31, 2021, the Company is not subject to any material litigation nor is the Company aware of any material litigation threatened against it.

As of August 12, 2022, the Company had a remaining funding commitment to one of its consolidated joint ventures of approximately \$151.7 million.

13. Leases

Lessee

Certain of the Company's investments in real estate are subject to a ground lease. The Company's ground leases are classified as operating leases based on the characteristics of the respective lease. The ground leases were acquired as part of the acquisition of real estate and no incremental costs were incurred for such ground leases. The Company's ground leases are non-cancelable and do not contain any additional renewal options.

The following table presents the future lease payments due under the Company's ground leases as of June 30, 2022 (\$ in thousands):

	Operating Leases
2022 (remaining)	\$ 342
2023	686
2024	686
2025	712
2026	714
Thereafter	26,497
Total undiscounted future lease payments	29,637
Difference between undiscounted cash flows and discounted cash flows	(17,164)
Total lease liability	\$ 12,473

The Company utilized its incremental borrowing rate, which was between 4.5% and 6%, to determine its lease liabilities. As of June 30, 2022, the weighted average remaining lease term of the Company's operating leases was 38 years.

Payments under the Company's ground leases contain fixed payment components. The Company's ground leases contained escalations prior to the Company's hold period.

Lessor

The Company's rental revenue primarily consists of rent earned from operating leases at the Company's multifamily, single-family rental, industrial, office, self-storage and other properties. Leases at the Company's industrial, office and other properties generally include a fixed base rent and certain leases also contain a variable component. The variable component of the Company's operating

leases at its industrial, office and other properties primarily consist of the reimbursement of operating expenses such as real estate taxes, insurance, and common area maintenance costs.

Leases at the Company's industrial, office and other properties are generally longer term and may contain extension and termination options at the lessee's election. The Company's rental revenue earned from leases at the Company's multifamily, single-family rental and self-storage properties primarily consists of a fixed base rent and certain leases contain a variable component that allows for the pass-through of certain operating expenses such as utilities. Leases at the Company's multifamily, single-family rental and self-storage properties are short term in nature, generally not greater than 12 months in length.

The following table summarizes the fixed and variable components of the Company's operating leases (\$ in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
Fixed lease payments	\$ 328,575	\$ 100,762	\$ 613,841	\$ 188,994

Rental revenue	<u>\$ 362,735</u>	<u>\$ 116,236</u>	<u>\$ 680,105</u>	<u>\$ 214,343</u>

The following table presents the undiscounted future minimum rents the Company expects to receive for its industrial, office and other properties (\$ in thousands) as of June 30, 2022. Leases at the Company's multifamily, single-family rental and self-storage properties are short term, generally 12 months or less, and are therefore not included.

14. Segment Reporting

The Company operates in seven reportable segments: Multifamily properties, Single-family rental properties, Industrial properties, Office properties, Self-Storage properties, Other properties and Investments in real estate debt. Effective January 1, 2022, the Hospitality properties and Medical Office properties have been combined within the Other segment and previous amounts have been recasted. The Company allocates resources and evaluates results based on the performance of each segment individually. The Company believes that segment net operating income is the key performance metric that captures the unique operating characteristics of each segment.

The following table sets forth the total assets by segment (\$ in thousands):

	June 30, 2022	December 31, 2021

15. Subsequent Events

Acquisitions/New Investments

Subsequent to June 30, 2022, the Company acquired an aggregate of \$0.4 billion of investments in real estate, exclusive of closing costs and related working capital, across three separate transactions and was financed with approximately \$0.2 billion of property level financing. In addition, the Company invested approximately \$0.5 billion in an unconsolidated real estate joint venture. The joint venture acquired the underlying investment from an affiliated entity.

Proceeds from the Issuance of Common Stock

Subsequent to June 30, 2022, the Company received net proceeds of \$0.6 billion from the issuance of its common stock in its public offering.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References herein to “Starwood Real Estate Income Trust, Inc.,” “Company,” “we,” “us,” or “our” refer to Starwood Real Estate Income Trust, Inc. and its subsidiaries unless the context specifically requires otherwise.

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those in this discussion as a result of various factors, including but not limited to those discussed under Item 1A. Risk Factors in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on March 28, 2022 and elsewhere in this Quarterly Report on Form 10-Q. We do not undertake to revise or update any forward-looking statements.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements include statements about our business, including, in particular, statements about our plans, strategies and objectives. Forward-looking statements can generally be identified by our use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “anticipate,” “estimate,” “believe,” “continue” or other similar words. These statements include our plans and objectives for future operations, including plans and objectives relating to future growth and availability of funds, and are based on current expectations that involve numerous risks and uncertainties, including risks related to the COVID-19 pandemic. Assumptions relating to these statements involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to accurately predict and many of which are beyond our control.

Although we believe the assumptions underlying the forward-looking statements, and the forward-looking statements themselves, are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that these forward-looking statements will prove to be accurate and our actual results, performance and achievements may be materially different from that expressed or implied by these forward-looking statements. In light of the significant uncertainties inherent in these forward looking statements, the inclusion of this information should not be regarded as a representation by us or any other person that our objectives and plans, which we consider to be reasonable, will be achieved.

You should carefully review Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2021, and elsewhere in this Quarterly Report on Form 10-Q for a discussion of the risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Except as otherwise required by federal securities laws, we do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

We were formed on June 22, 2017 as a Maryland corporation to invest primarily in stabilized, income-oriented commercial real estate and debt secured by commercial real estate. Our portfolio is principally comprised of properties located in the United States; however, we own a small number of investments located outside of the United States and primarily in Europe. To a lesser extent, we invest in real estate debt, including loans secured by real estate and real estate-related securities. We are an externally advised, perpetual-life REIT. We own all or substantially all of our assets through the Operating Partnership, of which we are the sole general partner. We and the Operating Partnership are externally managed by the Advisor.

Our board of directors has at all times oversight and policy-making authority over us, including responsibility for governance, financial controls, compliance and disclosure. Pursuant to an advisory agreement among the Advisor, the Operating Partnership and us (the “Advisory Agreement”), we have delegated to the Advisor the authority to source, evaluate and monitor our investment opportunities and make decisions related to the acquisition, management, financing and disposition of our assets, in accordance with our investment objectives, guidelines, policies and limitations, subject to oversight by our board of directors.

We have elected to be taxed as a REIT under the Code for U.S. federal income tax purposes, commencing with our taxable year ended December 31, 2019. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT.

On December 27, 2017, we commenced our Initial Public Offering of up to \$5.0 billion in shares of our common stock. On June 2, 2021, our Initial Public Offering terminated and we commenced our Follow-on Public Offering of up to \$10.0 billion in shares of common stock, consisting of up to \$8.0 billion in shares in our primary offering and up to \$2.0 billion in shares pursuant to our distribution reinvestment plan. On February 11, 2022, in accordance with the terms of the Follow-on Public Offering, we reallocated \$1,700,000,000 in shares from our distribution reinvestment plan to our primary offering, and as a result, we are now offering up to \$9,700,000,000 in shares in our primary offering and up to \$300,000,000 in shares pursuant to our distribution reinvestment plan. We are selling in the Follow-on Public Offering any combination of four classes of shares of our common stock, with a dollar value up to the maximum aggregate amount. We intend to continue selling shares in the Follow-on Public Offering on a monthly basis.

On February 8, 2022, we filed a Registration Statement on Form S-11 (File No. 333-262589) for a second follow-on public offering of up to \$18.0 billion in shares of our common stock (in any combination of purchases of Class T, Class S, Class D and Class I shares of our common stock), consisting of up to \$16.0 billion in shares of common stock in our primary offering and up to \$2.0 billion in shares of common stock pursuant to our distribution reinvestment plan. The Registration Statement was declared effective on August 10, 2022.

As of August 12, 2022, we had received net proceeds of \$12.0 billion from the sale of our common stock through our public offerings. We have contributed the net proceeds from our public offerings to the Operating Partnership in exchange for a corresponding number of Class T, Class S, Class D and Class I units. The Operating Partnership has primarily used the net proceeds to make investments in real estate and real estate debt as further described below under “Portfolio.”

Recent Developments

Business Outlook

The COVID-19 pandemic has brought, and continues to bring, unprecedented challenges to businesses and economies around the world. Although the U.S. Food and Drug Administration has approved certain therapies and vaccines fully and for emergency use and distribution to the public, the overall efficacy of the vaccines as new strains of COVID-19 have been discovered, and the level of resistance these new strains have to the existing vaccines remains unknown. The pandemic and public and private responses to the pandemic may lead to deterioration of economic conditions, which could materially affect our and/or our tenants’ performance, financial condition, results of operations, and cash flows. The extent to which the coronavirus impacts our investments and operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, the impact of new variants of the coronavirus, new information that may emerge concerning the severity of the coronavirus and the actions taken to contain the coronavirus or treat its impact, among others.

Economic uncertainty remains high associated with supply chain and labor shortage concerns, rising financing costs, rising inflationary concerns, market volatility, rising oil prices and other geopolitical risks arising from the Russia-Ukraine conflict and additional COVID-19 variants. The uncertainty of the economy as it is recovering from the pandemic, combined with other factors including, but not limited to, the Russia-Ukraine conflict, inflation, labor shortages and supply chain disruption, could, further destabilize the financial markets and geographies in which we operate.

Impact of COVID-19 - Results of Operations

As the COVID-19 pandemic has evolved from its emergence in early 2020, so has its global impact. Many countries have at times re-instituted, or strongly encouraged, varying levels of quarantines and restrictions on travel and in some cases have at times limited operations of certain businesses and taken other restrictive measures designed to help slow the spread of COVID-19 and its variants. Certain governments and businesses have also instituted vaccine mandates and testing requirements for employees. While vaccine availability and uptake has increased, the longer-term macro-economic effects on global supply chains, inflation, labor shortages and wage increases continue to impact many industries. Moreover, with the potential for new strains of COVID-19 to emerge, governments and businesses may re-impose aggressive measures to help slow its spread in the future. For this reason, among others, as the COVID-19 pandemic continues, the potential global impacts are uncertain and difficult to assess.

Our operating results depend, in large part, on revenues derived from leasing to residential and commercial tenants and the ability of our tenants to earn sufficient income to pay their rents in a timely manner. While we have performed relatively well in this regard, the rapid development and fast-changing nature of the COVID-19 pandemic creates many unknowns that could have a future material impact on us. Its duration and severity, the extent of the adverse health impact on the general population and governmental measures implemented to prevent its spread and cushion the economic impact on consumers, are among the unknowns. These, among other items, will likely impact the economy, the unemployment rate and our operations and could materially affect our future consolidated results of operations and overall performance.

For additional discussion with respect to the potential impact of the COVID-19 pandemic on our liquidity and capital resources see “—Liquidity and Capital Resources” below.

Operating Results:

- Raised \$1.8 billion and \$3.8 billion of gross proceeds in our public offering during the three and six months ended June 30, 2022, respectively.
- Declared monthly net distributions totaling \$137.5 million and \$252.9 million for the three and six months ended June 30, 2022, respectively. As of June 30, 2022, the annualized net distribution rate was 3.7% for Class T, 3.7% for Class S, 4.3% for Class D and 4.5% for Class I shares.
- Year-to-date total returns through June 30, 2022, excluding upfront selling commissions and dealer manager fees, were 8.1% for Class T, 7.9% for Class S, 8.3% for Class D and 8.3% for Class I shares. Total return is calculated as the change in NAV per share during the respective periods, assuming any distributions are reinvested in accordance with our distribution reinvestment plan. Management believes total return is a useful measure of the overall investment performance of our shares.
- Annualized total return from inception through June 30, 2022, excluding upfront selling commissions and dealer manager fees, was 14.6% for Class T, 14.6% for Class S, 14.8% for Class D and 15.3% for Class I shares. Annualized total return from inception through June 30, 2022, assuming full upfront selling commissions and dealer manager fees was 13.5% for Class T, 13.5% for Class S and 14.3% for Class D shares.

Investments:

- During the three months ended June 30, 2022, we acquired:
 - Two off-market apartment portfolios located across nine states primarily in the Sunbelt, with a combined purchase price of \$2.9 billion, excluding closing costs.
 - Three portfolios of affordable housing communities located in Arizona, Florida, DC metro, Virginia and Maryland with a combined purchase price of \$962.0 million, excluding closing costs.
 - Four logistic parks located in Florida, New Jersey, Italy and Denmark with a combined purchase price of \$760.0 million, excluding closing costs.
 - One mixed-use building located in Barcelona, Spain for a purchase price of \$149.6 million, excluding closing costs.
 - 290 single-family rental homes across three transactions, as part of an existing joint venture, with a total purchase price of \$117.0 million, excluding closing costs.
 - Provided a \$956.9 million senior loan for a take-private of Crown Resorts Limited.
- Subsequent to June 30, 2022, we acquired:
 - Four residential properties in a single transaction with a total purchase price of \$325.4 million, excluding closing costs.
 - An interest in an unconsolidated joint venture that owns and operates 196 extended stay assets for \$0.5 billion.
 - 137 single family rental homes for \$53.8 million, excluding closing costs.

Financings:

- During the three months ended June 30, 2022, we closed an aggregate of \$2.8 billion in property-level financing.

Impact of COVID-19 – Impairment Analysis

As of June 30, 2022, we had not recorded an impairment on any investments in our real estate portfolio. Despite revisions to future cash flows as a result of the impacts of COVID-19, as of June 30, 2022, the undiscounted cash flows of each of our real estate investments exceeded their carrying value. Certain investments within our portfolio are more susceptible to future impairment considerations due to uncertainty around future cash flows. This uncertainty is a result of the significant declines in occupancy and rates at our hospitality assets resulting from reduced travel and group business, as well as the uncertainty around the length of time needed for these assets to return to stabilization. Due to the rapidly changing environment, we will continue to evaluate our cash flow assumptions. Continued negative impacts of COVID-19 could result in impairments to certain of our investments in future periods.

⁽²⁾ Weighted average maturity date is based on the fully extended maturity date of the underlying collateral.

On February 26, 2021, we provided financing in the form of a term loan to an unaffiliated entity in connection with its acquisition of a premier United Kingdom holiday company. The loan is in the amount of £360 million and has an initial term of five years, with a two-year extension option. The loan is pre-payable at the option of the borrower at any time.

On June 21, 2022, we provided financing in the form of a term loan to an unaffiliated entity in connection with its acquisition of three Australian hospitality and leisure resorts. The loan is in the amount of AUD 1,377 million and has an initial term of five years, with a two-year extension option. The loan is pre-payable at the option of the borrower at any time.

Revenues

Rental revenue primarily consists of base rent arising from tenant leases at our multifamily, single-family rental, industrial, office, self-storage and other properties. Rental revenue is recognized on a straight-line basis over the life of the lease, including any rent steps or abatement provisions. During the three months ended June 30, 2022 and 2021, rental revenue was \$362.7 million and \$116.2 million, respectively. The increase in rental revenue was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021, respectively to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022, respectively.

Other revenue primarily consists of income from our hospitality properties. During the three months ended June 30, 2022 and 2021, other revenue was \$16.5 million and \$9.3 million, respectively. The increase in the other revenue was driven by the increase in occupancy within our hospitality properties.

While it is difficult to predict the future impact of COVID-19, our rent collections to date have not changed materially. To date, we have received very few requests from our tenants seeking concessions.

Expenses

Property operating expenses consist of the costs of ownership and operation of the real estate investments. Examples of property operating expenses include real estate taxes, insurance, utilities and repair and maintenance expenses. Property operating expenses also include general and administrative expenses unrelated to the operations of the properties. During the three months ended June 30, 2022 and 2021, property operating expenses were \$152.4 million and \$47.3 million, respectively. The increase was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021, respectively to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022, respectively.

General and administrative expenses are corporate-level expenses that relate mainly to our compliance and administration costs and consist primarily of legal fees, accounting fees, transfer agent fees and other professional fees. During the three months ended June 30, 2022, general and administrative expenses increased \$7.1 million compared to the three months ended June 30, 2021. The increase was driven by the growth in our portfolio.

Management fees are earned by our Advisor for providing services pursuant to the Advisory Agreement. During the three months ended June 30, 2022 and 2021, management fees were \$42.2 million and \$11.3 million, respectively. The increase was primarily due to the growth in our NAV, which increased by \$9.7 billion from June 30, 2021 to June 30, 2022.

Performance participation allocation relates to allocations from the Operating Partnership to the Special Limited Partner based on the total return of the Operating Partnership. Total return is defined as distributions paid or accrued plus the change in NAV. The performance participation allocation is measured annually and any amount earned by the Special Limited Partner becomes payable as of December 31 of the applicable year. During the three months ended June 30, 2022 and 2021, the performance participation allocation was \$52.3 million and \$23.7 million, respectively.

Depreciation and amortization expenses are impacted by the values assigned to buildings, personal property and in-place lease assets as part of the initial purchase price allocation. During the three months ended June 30, 2022 and 2021, depreciation and amortization expenses were \$205.6 million and \$60.7 million, respectively. The increase was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021, respectively to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022, respectively.

Other Income (Expense)

During the three months ended June 30, 2022 and 2021, income from investments in real estate debt was \$33.5 million and \$10.1 million, respectively, which consisted of loan origination fees/costs, interest income, unrealized gains/(losses), and realized gains/(losses) resulting from changes in the fair value of our real estate debt investments and related hedges.

During the three months ended June 30, 2022 and 2021, interest expense was \$108.3 million and \$32.2 million, respectively, which primarily consisted of interest expense incurred on our mortgage notes, revolving credit facility, unsecured revolving credit facility and borrowings under our secured financings on investments in real estate debt. The increase was primarily due to the growth in our portfolio of real estate and investments in real estate debt and the related indebtedness on such investments.

During the three months ended June 30, 2022 and 2021, other income, net was \$57.0 million and \$9.4 million, respectively, which was primarily driven by unrealized gains of \$78.6 million and \$8.6 million, respectively, relating to the change in the fair value of our interest rate swaps and interest rate caps. The interest rate caps and swaps are used primarily to limit our interest rate payments on certain of our variable rate borrowings.

Revenues

Rental revenue primarily consists of base rent arising from tenant leases at our multifamily, single-family rental, industrial, office, self-storage and other properties. Rental revenue is recognized on a straight-line basis over the life of the lease, including any rent steps or abatement provisions. During the six months ended June 30, 2022 and 2021, rental revenue was \$680.1 million and \$214.3 million, respectively. The increase in rental revenue was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021, respectively to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022, respectively.

Other revenue primarily consists of income from our hospitality properties. During the six months ended June 30, 2022 and 2021, other revenue was \$29.7 million and \$17.0 million, respectively. The increase in other revenue was driven by the increase in occupancy within our hospitality properties.

Expenses

Property operating expenses consist of the costs of ownership and operation of the real estate investments. Examples of property operating expenses include real estate taxes, insurance, utilities and repair and maintenance expenses. Property operating expenses also include general and administrative expenses unrelated to the operations of the properties. During the six months ended June 30, 2022 and 2021, property operating expenses were \$285.4 million and \$90.2 million, respectively. The increase was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021, respectively to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022, respectively.

General and administrative expenses are corporate-level expenses that relate mainly to our compliance and administration costs and consist primarily of legal fees, accounting fees, transfer agent fees and other professional fees. During the six months ended June 30, 2022, general and administrative expenses increased \$12.8 million compared to the six months ended June 30, 2021. The increase was driven by the growth in our portfolio.

Management fees are earned by our Advisor for providing services pursuant to the Advisory Agreement. During the six months ended June 30, 2022 and 2021, management fees were \$76.4 million and \$18.7 million, respectively. The increase was primarily due to the growth in our NAV, which increased by \$9.7 billion from June 30, 2021 to June 30, 2022.

Performance participation allocation relates to allocations from the Operating Partnership to the Special Limited Partner based on the total return of the Operating Partnership. Total return is defined as distributions paid or accrued plus the change in NAV. The performance participation allocation is measured annually and any amount earned by the Special Limited Partner becomes payable as of December 31 of the applicable year. During the six months ended June 30, 2022 and 2021, the performance participation allocation was \$139.5 million and \$32.4 million, respectively.

Pursuant to the advisory agreement between us, the Advisor and Starwood REIT Operating Partnership, L.P., the Advisor will reimburse us for any expenses that cause our Total Operating Expenses in any four consecutive fiscal quarters to exceed the greater of: (1) 2% of our Average Invested Assets or (2) 25% of our Net Income (each as defined in our charter) (the “2%/25% Limitation”).

Notwithstanding the foregoing, to the extent that our Total Operating Expenses exceed these limits and the independent directors determine that the excess expenses were justified based on unusual and nonrecurring factors that they deem sufficient, the Advisor would not be required to reimburse us.

For the four fiscal quarters ended June 30, 2022, our Total Operating Expenses exceeded the 2%/25% Limitation. Based upon a review of unusual and non-recurring factors, including but not limited to outsized performance during this period resulting in increased performance participation allocation expense, our independent directors determined that the excess expenses were justified.

Depreciation and amortization expenses are impacted by the values assigned to buildings, personal property and in-place lease assets as part of the initial purchase price allocation. During the six months ended June 30, 2022 and 2021, depreciation and amortization expenses were \$430.3 million and \$115.5 million, respectively. The increase was driven by the growth in our portfolio, which increased from 213 consolidated properties and no single-family rental homes as of June 30, 2021 to 509 real estate properties and 2,998 single-family rental homes as of June 30, 2022.

Other (Expense) Income

During the six months ended June 30, 2022 and 2021, income from investments in real estate debt was \$36.3 million and \$18.9 million, respectively, which consisted of loan origination fees/costs, interest income, unrealized gains/(losses), and realized gains/(losses) resulting from changes in the fair value of our real estate debt investments and related hedges.

During the six months ended June 30, 2022 and 2021, interest expense was \$186.1 million and \$50.1 million, respectively, which primarily consisted of interest expense incurred on our mortgage notes, revolving credit facility, unsecured revolving credit facility and borrowings under our secured financings on investments in real estate debt. The increase was primarily due to the growth in our portfolio of real estate and investments in real estate debt and the related indebtedness on such investments.

During the six months ended June 30, 2022 and 2021, other income, net was \$314.3 million and \$17.3 million, respectively, which was primarily driven by unrealized gains of \$348.2 million and \$16.6 million, respectively, relating to the change in the fair value of our interest rate swaps and interest rate caps. The interest rate caps and swaps are used primarily to limit our interest rate payments on certain of our variable rate borrowings.

Funds from Operations and Adjusted Funds from Operations

We believe funds from operations (“FFO”) is a meaningful supplemental non-GAAP operating metric. Our condensed consolidated financial statements are presented under historical cost accounting which, among other things, requires depreciation of real estate investments to be calculated on a straight-line basis. As a result, our operating results imply that the value of our real estate investments will decrease evenly over a set time period. However, we believe that the value of real estate investments will change over time based on market conditions and as such, depreciation under historical cost accounting may be less informative. FFO is a standard REIT industry metric defined by the National Association of Real Estate Investment Trusts (“NAREIT”).

FFO, as defined by NAREIT and presented below, is calculated as net income or loss (computed in accordance with GAAP), excluding (i) gains or losses from sales of depreciable real property, (ii) impairment write-downs on depreciable real property, (iii) plus real estate-related depreciation and amortization, and (iv) similar adjustments for unconsolidated joint ventures.

We also believe that adjusted FFO (“AFFO”) is a meaningful supplemental non-GAAP disclosure of our operating results. AFFO further adjusts FFO in order for our operating results to reflect the specific characteristics of our business by adjusting for items we believe are not related to our core operations. Our adjustments to FFO to arrive at AFFO include removing the impact of (i) straight-line rental income and expense, (ii) deferred income amortization, (iii) amortization of above- and below-market lease intangibles, (iv) amortization of mortgage premium /discount, (v) unrealized gains or losses from changes in the fair value of real estate debt and other financial instruments, (vi) gains and losses resulting from foreign currency translations, (vii) amortization of restricted stock awards, (viii) non-cash performance participation allocation, even if repurchased by us, (ix) amortization of deferred financing costs, and (x) similar adjustments for unconsolidated joint ventures. AFFO is not defined by NAREIT and our calculation of AFFO may not be comparable to disclosures made by other REITs.

The following table presents a reconciliation of FFO and AFFO to GAAP net (loss) attributable to stockholders (\$ in thousands):

⁽¹⁾ Effective with the period ended September 30, 2021, we updated our definition of AFFO to exclude the impact of deferred income amortization. Prior periods have been reclassified to conform to current period presentation.

FFO and AFFO should not be considered to be more relevant or accurate than the GAAP methodology in calculating net income (loss) or in evaluating our operating performance. In addition, FFO and AFFO should not be considered as alternatives to net income (loss) as indications of our performance or as alternatives to cash flows from operating activities as indications of our liquidity, but rather should be reviewed in conjunction with these and other GAAP measurements. Further, FFO and AFFO are not intended to be used as liquidity measures indicative of cash flow available to fund our cash needs, including our ability to make distributions to our stockholders.

Real Estate Portfolio Valuation

During the second quarter of 2022, many countries across the world continued to experience high inflation, rising interest rates and slowing economic growth which in combination resulted in a challenging real estate investment climate.

71% of our real estate portfolio is invested in residential across (i) market rented multi-family apartments, (ii) affordable apartments, and (iii) single-family home rental homes. These assets are primarily located in seven growth markets in the U.S. (specifically, FL, Washington DC, TX, NC, GA, AZ, and TN) where population and job growth have been the strongest. During the second quarter of 2022, the multifamily and single-family rental home investments continued to see increases in their values based on strong operating performance and investor demand for these asset classes. Our market rate multifamily portfolio experienced rent growth of 18% year-

over-year on new leases and mid-13% on combined new and renewal leases over the trailing 30, 60 and 90 days ended June 30, 2022.

The industrial valuations experienced modest increases during the second quarter of 2022. This is attributed to continued strong real estate fundamentals and demand. Recent market rent growth across our industrial markets averaged 21% in the second quarter of 2022 year-over-year for our nearly 100% occupied portfolio. Average lease terms in industrial are approximately five years, so with the continued strong rent growth, there is a sizeable gap between today's in-place rents and market rents across the portfolio.

In our office segment, valuations declined during the second quarter 2022 as investor sentiment reflected more uncertainty. Our investments continue to have strong characteristics such as long weighted average lease terms, high quality tenant base and desirable locations. However, future valuations might be more negatively impacted depending on the longer term implications resulting from COVID-19, including the number of companies that transition to full time and/or part time remote working, desire for companies to be located in suburban and/or urban environments, amount of square footage per employee companies decide is appropriate, the impact of new variants, increased financing costs and if the Federal government provides additional stimulus. These outcomes can potentially lead to slower forecasted rental growth, reduced occupancies, slower lease-up, reduced lease renewals, contractions and/or higher tenant delinquencies, which may result in lower operating cash flows and valuations.

As of June 30, 2022, our independent valuation advisor or external third-party appraisal firms (for certain assets) valued the majority of our real estate portfolio to reflect the most recent market conditions.

Net Asset Value

The purchase price per share for each class of our common stock is the then-current transaction price, which generally equals our prior month's NAV per share, as determined monthly, plus applicable selling commissions and dealer manager fees. Our NAV for each class of shares is based on the net asset values of our investments (including investments in real estate debt), the addition of any other assets (such as cash on hand) and the deduction of any liabilities, including the allocation/accrual of any performance participation, and any stockholder servicing fees applicable to such class of shares.

For more information on our Net Asset Value Calculation and Valuation Guidelines, please refer to our prospectus. Please also refer to "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, as supplemented, for additional disclosure relating to material trends or uncertainties that may impact our business.

The following table provides a breakdown of the major components of our NAV (\$ and shares/units in thousands):

Components of NAV	June 30, 2022
Investments in real estate	\$ 25,305,095
Investments in real estate debt	1,921,978
Cash and cash equivalents	545,931

Minority interest	(116,125)
Net asset value	\$ 13,850,394
Number of outstanding shares/units	503,307

⁽¹⁾ Stockholder servicing fees only apply to Class T, Class S, and Class D shares. For purposes of NAV we recognize the stockholder servicing fee as a reduction of NAV on a monthly basis. Under GAAP, we accrue the full cost of the stockholder servicing fee as an offering cost at the time we sell Class T, Class S and Class D shares. As of June 30, 2022, we have accrued under GAAP \$417.3 million of stockholder servicing fees payable to the Dealer Manager related to the Class T, Class S and Class D shares sold.

The following table provides a breakdown of our total NAV and NAV per share by share class as of June 30, 2022 (\$ and shares/units in thousands, except per share/unit data):

NAV Per Share	Class S Shares	Class T Shares	Class D Shares	Class I Shares	Third-party Operating Partnership Units ⁽¹⁾	Total

Set forth below are the weighted averages of the key assumptions in the discounted cash flow methodology used in the June 30, 2022 valuations, based on property types. Once we own more than one self-storage investment, we will include the key assumptions for the property type.

Property Type	Discount Rate	Exit Capitalization Rate
Multifamily	5.9%	4.6%
Single-Family Rental	6.0%	4.8%
Industrial	5.9%	4.9%
Office	7.4%	5.8%
Other	7.7%	6.2%

For quarter-end months, these assumptions are determined by the independent valuation advisor or third party appraisers. In addition, the independent valuation advisor reviews the assumptions included in the third-party appraisals. The Advisor reviews the assumptions from each of the appraisals regardless of who performs the work. A change in these assumptions would impact the calculation of the value of our property investments. For example, assuming all other factors remain unchanged, the changes listed below would result in the following effects on our investment values:

Input	Hypothetical Change	Multifamily Investment Values	Single-Family Rental Investment Values	Industrial Investment Values	Office Investment Values	Other Investment Values
Discount Rate	0.25% decrease	+2.0%	+2.0%	+2.0%	+1.9%	+1.9%
(weighted average)	0.25% increase	(2.0)%	(1.9)%	(2.0)%	(2.0)%	(1.9)%
Exit Capitalization Rate	0.25% decrease	+3.8%	+3.7%	+3.7%	+2.9%	+2.6%
(weighted average)	0.25% increase	(3.4)%	(3.3)%	(3.4)%	(2.8)%	(2.4)%

The following table reconciles stockholders' equity from our Condensed Consolidated Balance Sheet to our NAV (\$ in thousands):

Reconciliation of Stockholders' Equity to NAV	June 30, 2022
Stockholders' equity under GAAP	\$ 9,861,244
Redeemable non-controlling interest	445,271
Total partners' capital of Operating Partnership	10,306,515
Adjustments:	
Accrued stockholder servicing fee	412,837
Advanced organization and offering costs and Advanced operating expenses	3,839
Unrealized real estate appreciation	2,181,910
Accumulated depreciation and amortization	945,293
NAV	\$ 13,850,394

The following details the adjustments to reconcile stockholders' equity to our NAV:

- Accrued stockholder servicing fee represents the accrual for the full cost of the stockholder servicing fee for Class T, Class S and Class D shares. Under GAAP we accrued the full cost of the stockholder servicing fee payable over the life of each share (assuming such share remains outstanding the length of time required to pay the maximum stockholder servicing fee) as an offering cost at the time we sold the Class T, Class S and Class D shares. Refer to Note 2 — “Summary of Significant Accounting Policies” to our consolidated financial statements in this Quarterly Report on Form 10-Q for further details of the GAAP treatment regarding the stockholder servicing fee. For purposes of NAV, we recognize the stockholder servicing fee as a reduction of NAV on a monthly basis.
- The Advisor advanced organization and offering costs for our Initial Public Offering (other than upfront selling commissions, dealer manager fees and stockholder servicing fees) on our behalf through December 21, 2019. Such costs are reimbursed to the Advisor pro rata over 60 months following December 21, 2019. Under GAAP, organization costs are expensed as incurred and offering costs are charged to equity as such amounts are incurred. For NAV, such costs are recognized as a reduction to NAV as they are reimbursed ratably over 60 months.
- Our investments in real estate are presented under historical cost in our condensed consolidated financial statements. Additionally, our mortgage notes, revolving credit facility, secured financings on investments in real estate debt and unsecured line of credit (“Debt”) are presented at their carrying value in our condensed consolidated financial statements. As such, any changes in the fair value of our Debt are not included in our GAAP results. For purposes of determining our NAV, our investments in real estate and our Debt are recorded at fair value.
- We depreciate our investments in real estate and amortize certain other assets and liabilities in accordance with GAAP. Such depreciation and amortization is not recorded for purposes of determining our NAV.

Distributions

Since February 2019, we have declared monthly distributions for each class of our common stock, which are generally paid three days after month-end. Each class of our common stock received the same gross distribution per share, which was \$0.6210 per share for the six months ended June 30, 2022. The net distribution varies for each class based on the applicable stockholder servicing fee, which is deducted from the gross distribution per share and paid to the Dealer Manager. The table below details the net distribution for each of our share classes for the six months ended June 30, 2022:

Liquidity and Capital Resources

While the long-term impact of COVID-19 to our business is not yet known, we believe we are well positioned from a liquidity perspective with \$2.1 billion of immediate liquidity as of June 30, 2022, made up of \$1.6 billion of an undrawn unsecured Line of Credit and \$0.5 billion of cash on hand. Excluded from the cash balance is an incremental \$0.3 billion associated with the June 2022 net capital raise, which will be available to us at the start of the subsequent month. In addition, we hold approximately \$0.7 billion in investments in real estate-related debt securities and real estate-related equity securities that could be liquidated to satisfy any potential liquidity requirements.

Our primary needs for liquidity and capital resources are to fund our investments, to make distributions to our stockholders, to repurchase shares of our common stock pursuant to our share repurchase plan, to pay our offering and operating expenses and capital expenditures and to pay debt service on the outstanding indebtedness we incur. Our operating expenses include, among other things, fees and expenses related to managing our properties and other investments, the management fee we pay to the Advisor (to the extent the Advisor elects to receive the management fee in cash), the performance participation allocation that the Operating Partnership will pay to the Special Limited Partner (to the extent that the Advisor elects to receive the performance participation allocation in cash) and general corporate expenses.

Our cash needs for acquisitions and other investments will be funded primarily from the sale of shares of our common stock and through the assumption or incurrence of debt. For the six months ended June 30, 2022, we raised \$3.8 billion of gross proceeds in our public offering. In addition, for the six months ended June 30, 2022, we have repurchased \$165.3 million in shares of our common stock under our share repurchase plan.

We continue to believe that our current liquidity position is sufficient to meet our expected investment activity. Other potential future sources of capital include secured or unsecured financings from banks or other lenders and proceeds from the sale of assets. If necessary, we may use financings or other sources of capital in the event of unforeseen significant capital expenditures. From inception through June 30, 2022, our distributions have been entirely funded from cash flow from operating activities.

The following table is a summary of our indebtedness as of June 30, 2022 and December 31, 2021 (\$ in thousands):

Total Indebtedness				\$ 14,616,949	\$ 11,997,372

(1) The term "L" refers to the relevant floating benchmark rates, which includes one-month LIBOR, one-month SOFR, NYFED 30 day SOFR, three-month EURIBOR and three-month CIBOR, as applicable to each loan.

(2) For loans where we, at our own discretion, have extension options, the maximum maturity date has been assumed.

(3) The majority of our mortgages contain yield or spread maintenance provisions.

(4) Our revolving credit facility is used as bridge financing and can be drawn upon to fund the acquisition of future real estate investments. The repayment of the revolving credit facility is guaranteed by the Operating Partnership.

(5) The repayment of the Line of Credit facility is guaranteed by us.

Subsequent to June 30, 2022, we raised \$0.6 billion in the Follow-on Public Offering and had approximately \$252.7 million of investor redemptions, which totaled approximately 1.8% of our June 30, 2022 NAV. All repurchase requests were met from cash on hand.

Cash Flows

The following table provides a breakdown of the net change in our cash and cash equivalents and restricted cash (\$ in thousands):

	Six Months Ended June 30,	
	2022	2021
Cash flows provided by operating activities	\$ 264,181	\$ 96,631
Cash flows used in investing activities	(5,643,405)	(3,129,897)
Cash flows provided by financing activities	5,508,555	3,651,712
Effect of exchange rate changes	(7,296)	—
Net increase in cash and cash equivalents and restricted cash	<u>\$ 122,035</u>	<u>\$ 618,446</u>

Cash flows provided by operating activities increased \$167.6 million during the six months ended June 30, 2022 compared to the corresponding period in 2021. This increase resulted from an increase in the number of investments in real estate and income generated from our investments in real estate debt.

Cash flows used in investing activities increased \$2.5 billion during the six months ended June 30, 2022 compared to the corresponding period in 2021 primarily due to an increase in acquisitions of real estate of \$2.0 billion and an increase of \$0.6 billion in the origination/purchase of real estate debt.

Cash flows provided by financing activities increased \$1.9 billion during the six months ended June 30, 2022 compared to the corresponding period in 2021 primarily due to a \$1.4 billion increase in net proceeds from the issuance of our common stock, a net increase of \$0.4 billion driven by greater debt borrowings, net of repayments, offset by a (\$0.1) billion decrease in subscriptions received in advance and a (\$0.1) billion increase in distributions.

Critical Accounting Policies

The preparation of the financial statements in accordance with GAAP involves significant judgments and assumptions and requires estimates about matters that are inherently uncertain. These judgments will affect our reported amounts of assets and liabilities and our disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. With different estimates or assumptions, materially different amounts could be reported in our financial statements. We consider our accounting policies over investments in real estate and lease intangibles, investments in securities, and revenue recognition to be our critical accounting policies. Refer to Note 2 — “Summary of Significant Accounting Policies” to our condensed consolidated financial statements in this Quarterly Report on Form 10-Q for further descriptions of such accounting policies.

Recent Accounting Pronouncements

See Note 2 — “Summary of Significant Accounting Policies” to our condensed consolidated financial statements in this Quarterly Report on Form 10-Q for a discussion concerning recent accounting pronouncements.

Off-Balance Sheet Arrangements

As of August 12, 2022, we have a remaining funding commitment to one of our consolidated joint ventures of approximately \$152 million.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Capital Market Risk

We are exposed to risks related to the equity capital markets and our related ability to raise capital through the issuance of our common stock. We are also exposed to risks related to the debt capital markets, and our related ability to finance our business through borrowings under mortgages, repurchase obligations or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore requires us to utilize debt or equity capital to finance our business.

The COVID-19 pandemic has also resulted in extreme volatility in a variety of global markets, including the real estate related debt markets. We have received and may in the future receive margin calls from our lenders as a result of the decline in the market value of assets pledged by us to our lenders under our secured financings on investments in real estate debt, and if we fail to resolve such margin calls when due by payment of cash or delivery of additional collateral, the lenders may exercise remedies including taking ownership of the assets securing the applicable obligations.

Interest Rate Risk

We are exposed to interest rate risk with respect to our variable-rate mortgage indebtedness, variable-rate revolving credit facility, secured financings on investments in real estate debt and our unsecured line of credit, where an increase in interest rates would directly result in higher interest expense costs. We seek to manage our exposure to interest rate risk by utilizing a mix of fixed and floating rate financings with staggered maturities and through interest rate protection agreements to fix or cap a portion of our variable rate debt. As of June 30, 2022, the outstanding principal balance of our variable rate indebtedness was \$11.0 billion.

Certain of our mortgage loans and secured financings on investments in real estate debt are variable rate and are indexed to the one-month U.S. dollar denominated LIBOR or other benchmark rates. For the six months ended June 30, 2022, a 10% increase in the one-month U.S. dollar denominated LIBOR or other benchmark rates would have resulted in an increase in interest expense of \$2.3 million.

Foreign Currency Risk

We intend to hedge our currency exposures in a prudent manner to the extent it is cost effective to do so. However, our currency hedging strategies may not eliminate all of our currency risk due to, among other things, uncertainties in the timing and/or amount of payments received on the related investments, and/or unequal, inaccurate, or unavailable hedges to perfectly offset changes in future exchange rates. Additionally, we may be required under certain circumstances to collateralize our currency hedges for the benefit of the hedge counterparty, which could adversely affect our liquidity.

Consistent with our strategy of hedging foreign currency exposure on certain investments, we typically enter into a series of foreign currency swaps to fix the U.S. dollar amount of foreign currency denominated cash flows (interest income, rental income, principal payments and net sales proceeds after the repayment of debt) we expect to receive from our foreign currency denominated investments.

Investments in Real Estate Debt

As of June 30, 2022, we held \$1.9 billion of investments in real estate debt. Certain of our investments in real estate debt are floating rate and indexed to various benchmark rates and as such, are exposed to interest rate risk. Our net income will increase or decrease depending on interest rate movements. While we cannot predict factors that may or may not affect interest rates, for the six months ended June 30, 2022, a 10% increase or decrease in the various benchmark rates would have resulted in an increase or decrease to income from investments in real estate debt of \$0.4 million.

We may also be exposed to market risk with respect to our investments in real estate debt due to changes in the fair value of our investments. We seek to manage our exposure to market risk with respect to our investments in real estate debt by making investments in securities backed by different types of collateral and varying credit ratings. The fair value of our investments may fluctuate, thus the amount we will realize upon any sale of our investments is unknown. As of June 30, 2022, the fair value at which we may sell our investments in real estate debt is not known, but a 10% change in the fair value of our investments in real estate debt may result in an unrealized gain or loss of \$192.2 million.

LIBOR Transition Risk

In July 2017, the United Kingdom's Financial Conduct Authority (the "FCA") (the authority that regulates LIBOR) announced it intends to stop compelling banks to submit rates for the calculation of LIBOR after 2021. The FCA subsequently announced on March 5, 2021 that the publication of LIBOR will cease for the one-week and two-month USD LIBOR settings immediately after December 31, 2021, and the remaining USD LIBOR settings immediately after June 30, 2023. There is currently no certainty regarding the future utilization of LIBOR or of any particular replacement rate (although the secured overnight financing rate has been proposed as an alternative to U.S.-dollar LIBOR). As indicated in the "Interest Rate Risk" section above, a substantial portion of our loans, investment securities, borrowings and interest rate derivatives are indexed to LIBOR or similar reference rates. Market participants anticipate that financial instruments tied to LIBOR will require transition to an alternative reference rate if LIBOR is no longer available. Our LIBOR-based loan agreements and borrowing arrangements generally specify alternative reference rates such as the prime rate and federal funds rate, respectively. The potential effect of the discontinuation of LIBOR on our interest income and expense cannot yet be determined and any changes to benchmark interest rates could increase our financing costs and/or result in mismatches between the interest rates of our investments and the corresponding financings. Our foreign denominated loan agreements and borrowing arrangements generally specify the sterling overnight index average ("SONIA") instead of U.S. dollar denominated LIBOR.

As of June 30, 2022, daily compounded SONIA is utilized as the floating benchmark rate on one of our borrowing facilities, while SOFR is utilized as the floating benchmark rate on twenty-one of our loans.

At this time, it is not possible to predict how markets will respond to SOFR, SONIA, or other alternative reference rates as the transition away from USD LIBOR proceeds. The resulting changes to benchmark interest rates could increase our financing costs and/or result in mismatches between the interest rates of our investments and the corresponding financings.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of our "disclosure controls and procedures" (as defined in Rule 13a-15(e) under the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q was made under the supervision and with the participation of our management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"). Based upon this evaluation, our CEO and CFO have concluded that our disclosure controls and procedures (a) are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized

and reported within the time periods specified by the Securities and Exchange Commission (the “SEC”) rules and forms and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There have been no changes in our “internal control over financial reporting” (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We have not experienced any material impact to our internal control over financial reporting to date as a result of employees working remotely due to the COVID-19 pandemic. We are continually monitoring and assessing the COVID-19 pandemic’s effect on our internal controls to minimize the impact to their design and operating effectiveness.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we may be involved in various claims and legal actions arising in the ordinary course of business. As of June 30, 2022, we were not involved in any material legal proceedings.

ITEM 1A. RISK FACTORS

Except as disclosed in Part II. Item 1A. Risk Factors in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2022 and except as set forth below, there have been no material changes to the risk factors previously disclosed under Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2021.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities

Except as described below, during the six months ended June 30, 2022, we did not sell any equity securities that were not registered under the Securities Act. As described in Note 11 – “Related Party Transactions” to our condensed consolidated financial statements in this Quarterly Report on Form 10-Q, the Advisor is entitled to a management fee payable monthly in cash, shares of common stock, or units of the Operating Partnership, in each case at the Advisor’s election. For the three months ended June 30, 2022, the Advisor elected to receive its management fees in Class I shares and we issued 1,007,708 unregistered Class I shares to the Advisor in satisfaction of the management fee for April 2022 and May 2022. Additionally, we issued 533,264 unregistered Class I shares to the Advisor in July 2022 in satisfaction of the June 2022 management fee. The shares were issued at the applicable NAV per share at the end of each month for which the fee was earned. Each issuance to the Advisor was made pursuant to Section 4(a)(2) of the Securities Act.

Share Repurchase Plan

We have adopted a share repurchase plan, whereby on a monthly basis, stockholders may request that we repurchase all or any portion of their shares. We may choose to repurchase all, some or none of the shares that have been requested to be repurchased at the end of any particular month, in our discretion, subject to any limitations in the share repurchase plan.

The total amount of aggregate repurchases of Class T, Class S, Class D, and Class I shares (excluding any early repurchase deduction) is limited to 2% of the aggregate NAV per month (measured using the aggregate NAV as of the end of the immediately preceding month) and 5% of the aggregate NAV per calendar quarter (measured using the aggregate NAV as of the end of the immediately preceding quarter).

Shares are repurchased at a price equal to the transaction price on the applicable repurchase date, subject to any early repurchase deduction. Shares that have not been outstanding for at least one year are repurchased at 95% of the transaction price. Due to the illiquid nature of investments in real estate, we may not have sufficient liquid resources to fund repurchase requests and may elect not to repurchase some or all of the shares submitted for repurchase in a given period. Further, we may make exceptions to, modify or suspend the share repurchase plan. Our board of directors may also determine to terminate our share repurchase plan if required by applicable law or in connection with a transaction in which our stockholders receive liquidity for their shares of our common stock, such as a sale or merger of our company or listing of our shares on a national securities exchange.

If the transaction price for the applicable month is not made available by the tenth business day prior to the last business day of the month (or is changed after such date), then no repurchase requests will be accepted for such month and stockholders who wish to have their shares repurchased the following month must resubmit their repurchase requests.

During the three months ended June 30, 2022, we repurchased shares of our common stock in the following amounts, which represented all of the share repurchase requests received for the same period.

Month of:	Total Number of Shares Repurchased ^{(1) (2) (3)}	Repurchases as a Percentage of Shares Outstanding ⁽²⁾	Average Price Paid per Share	Total Number of Shares Repurchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Repurchased Under the Plans or Programs ⁽³⁾
April 2022	857,903	0.19%	\$ 26.54	857,903	—
May 2022	1,094,771	0.23%	27.15	1,094,771	—
June 2022	2,404,277	0.49%	27.38	2,404,277	—
Total	<u>4,356,951</u>		<u>\$ 27.16</u>	<u>4,356,951</u>	<u>—</u>

(1) Repurchases are limited under the share repurchase plan as described above. Under the share repurchase plan, we would have been able to repurchase up to an aggregate of \$586.9 million of Class T, Class S, Class D and Class I shares based on our March 31, 2022 NAV in the second quarter of 2022 (if such repurchase requests were made). Pursuant to the share repurchase plan, this amount resets at the beginning of each quarter.

(2) All repurchase requests under our share repurchase plan were satisfied.

(3) Includes 66,792 Class I shares previously held by the Advisor that were received as payment for its management fee, and that were repurchased outside of our share repurchase plan.

The Special Limited Partner holds 9,048,789 Class I units in the Operating Partnership. The redemption of any Class I units held by the Special Limited Partner or shares held by the Advisor acquired as payment of the Advisor's management fee occur outside of our share repurchase plan.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

On August 12, 2022, our board of directors amended and restated our bylaws, effective August 12, 2022 (as so amended and restated, our "Bylaws"), to clarify that individuals nominated in accordance with Section 11 of Article II thereof are also eligible for election as directors. The foregoing description of our Bylaws is qualified in its entirety by the full text of our Bylaws, a copy of which is filed as Exhibit 3.4 to this Quarterly Report on Form 10-Q and is incorporated by reference herein.
